Contact: Casey D. Coley, P.E.  
The C.T. Brannon Corporation  
Tx Reg. #F-242

The following revisions, additions, and clarifications are to be incorporated into your bid for the above referenced project. Acknowledgment of receipt of this addendum is required on the bid proposal. Failure to acknowledge all addenda will render your bid out of form and result in disqualification. If you have any questions, please contact the project manager immediately.

**ADDENDUM ITEM NUMBER 1**

Specification Item 340 Dense-Graded Hot-Mix Asphalt: Joints will NOT be required to be preheated. Delete the last paragraph of Section 4.6 Placement Operations regarding preheating joints.

~~Bituminous material shall not be placed against previously completed material that has a temperature below 175°F. If necessary, longitudinal joints shall be preheated by using an infrared heater attached to the paver ahead of the screed a sufficient distance to allow for proper preheating. Transverse joints shall be preheated to a minimum of 250°F using a portable infrared heater. The temperature of the bituminous material being preheated shall not exceed 300°F.~~

**ADDENDUM ITEM NUMBER 2**

Specification Item P-610 Concrete for Miscellaneous Structures: Type 1L cement will be allowed, modify paragraph 610-2.4 as follows:

**610-2.4 Cement.** Cement shall conform to the requirements of **ASTM C 150 Type 1 or 1L**
